### **5. FEDERAL WATERMASTER'S REPORT – Chad Blanchard**

*A complete copy of the Water Report is available at District Offices or on the internet at [troa.net](http://troa.net).*

It has been a dismal winter so far however all Reservoirs are at flood control and there should be no problem making rates this year. Not a lot of precipitation in the models for the future. Ground water is good considering the lack of precipitation and the soil moisture is high.

### **6. DISCUSSION AND POSSIBLE BOARD DIRECTION REGARDING ENCROACHMENT PERMIT REQUESTS AND PROJECTS – Lori Williams**

1. NDOT Bridge Scour Project – See Engineer's Report. Costs to date for this project are approximately \$3,000. This is something the Board may want to look at and consider a charge back to NDOT at the time of approval. Ms. Williams will bring a better accounting of the time and money spent at a later date.
2. U.S. Fish and Wildlife submitted an application for the rebuild of the Steamboat canal diversion. This is for diversions for fish passage. They have not paid the \$400 yet but documents have been transmitted to USACE in Sacramento and Ms. Williams will begin her review on the project. Fish and Wildlife is hoping to get the permit by August 1, 2018 for a fall start date. Fish & Wildlife has indicated that they would be willing to pay USACE to review their permit.
3. City of Reno Stoker Storm Drain – This was originally approved by the District approximately 2 years ago. It looks like the USACE is now done with its review. There were some NEPA issues but it looks like it will be moving forward.

### **7. DISCUSSION AND POSSIBLE BOARD ACTION REGARDING POSSIBLE 408 PERMIT REVIEW DELAYS AT THE USACE FLOOD BRANCH DUE TO BUDGET MATTERS– Lori Williams**

*See Engineer's Report*

It is unknown at this time if the new budget includes 408 funding. Ms. Williams is going to check with Congressman Amodei's office to see if this funding was included.
